PROFILE

Social and creative marketing lead with seven years turning complex technical products into clear public narratives, platform-native social content, and communities people want to follow. At NEAR Foundation I worked with co-founder Illia Polosukhin, co-author of "Attention Is All You Need", on brand strategy and communications while scaling X followers by 500% in six months and share of voice by 600%. I also build AI-assisted products myself, including creative tooling and recurring content experiments, so I understand the difference between describing a product and showing why it matters.

EXPERIENCE

Fogo

May 2025 – Present

Social Lead

- Own social strategy, public voice, and technical storytelling for a high-performance Layer 1 blockchain
- Translate technical concepts such as sub-40ms block times, colocation consensus, and market-structure design into clear audience-facing narratives
- Work daily with founders, engineering, product, and ecosystem teams to keep external messaging accurate and useful
- Use Superluminal (@slx_fi) as a sharper current example of product-led social voice, technical positioning, and market education

NEAR Foundation

Jul 2021 – May 2025

Head of Creative Campaigns & Social Media

Community Lead → Community Engagement Lead → Head of Social Media → Head of Creative Campaigns & Social Media

- **500% increase in X followers in 6 months**
- **600% increase in share of voice** in under 3 months by targeting developer audiences directly
- Ran the largest CoinGecko co-marketing campaign in the ecosystem: **20,000 users, 10,000+ on-chain transactions**
- Worked directly with co-founder Illia Polosukhin, co-author of "Attention Is All You Need", on brand strategy, communications, and ecosystem narrative
- Hired and mentored a Marketing Executive from onboarding through to working independently
- Sat in top-level strategy sessions at international offsites. Contributed to marketing direction and org-wide planning
- Set the strategy for NEAR's forum and Discord as part of the wider brand and audience ecosystem. Both hit **all-time activity highs**
- Represented NEAR at events around the world, helping translate the brand in rooms where audience trust and presence actually mattered
- Presented on stage at international conferences and interviewed industry leaders

Plutus.it

Jul 2018 – Sep 2021

Community Manager & Customer Service Team Lead

- Owned social and audience-facing channels across Discord, Telegram, BitcoinTalk, and Reddit for a crypto fintech startup
- Created an Ambassador Program that gave the most active members a reason to stay active
- Worked with marketing to drive traffic to the site and social channels
- Built the support system from scratch: Zendesk, live chat, how-to guides, FAQ database
- Wrote due diligence reports on potential partners for the executive team

Earlier: Sales at Dixons Carphone (2015–2018). Crew Trainer at McDonald's (2011–2015). Customer-facing work since I was 16.

CAPABILITIES

- Social Strategy & Audience Growth — X, LinkedIn, Discord, community surfaces, audience development, and brand presence.
- Strategic Communications — Brand narrative, positioning, launch messaging, executive communications, and technical storytelling.
- Content Strategy — Platform-native social copy, campaigns, threads, scripts, product moments, demos, and long-form.
- Cross-functional Collaboration — Creative, product, engineering, founders, growth, external partners. I work between teams and keep everyone aligned.
- Partner & Stakeholder Management — Co-marketing, partnerships, executive comms across time zones.
- Campaigns, Events & Activation — Launches, co-marketing moments, creator/community activations, international conferences, logistics and follow-through.
- AI & Product Development — AI-assisted product building, creative tooling, rapid prototyping, and user feedback loops.
- Video Editing & Product Demos — Short-form video workflows, screen recording, product walkthroughs, social clips, and editing for clear product moments.
- Performance Insight & Reporting — Engagement metrics, share of voice, campaign reporting, and signal tracking.

EDUCATION

Northumbria University

BSc Computer & Digital Forensics — 2015–2018

Dissertation: A Forensic Investigation into Bitcoin and TOR

General Assembly

Product Management — 2021

WHAT I BUILD

I build things on the side. Partly because I enjoy it, partly because shipping your own product teaches you more about users than any research.

PepTrack **LIVE** · **REVENUE**

Peptide tracking app live on Google Play. Proof of hands-on product thinking, positioning, user onboarding, and monetisation beyond advisory marketing work.

MascotVibe **LAUNCHED** · **PRODUCT HUNT**

AI mascot generator and animator launched on Product Hunt. Practical experience with AI creative tooling, brand identity, character generation, and social-ready assets.

Infinite Strip **AUTONOMOUS**

Autonomous AI-generated comic experiment: recurring creative production, automated publishing, and AI-native entertainment.

KEY HIGHLIGHTS

- Worked directly with NEAR co-founder Illia Polosukhin (co-author of "Attention Is All You Need") on brand strategy
- Current work sample: Superluminal (@slx_fi) for product-led social voice and technical market education
- Promoted 4 times in under 4 years at NEAR Foundation
- In crypto and blockchain since 2014
- Public speaker at international conferences
- Degree dissertation on Bitcoin forensics
